Teledec

INTERNATIONAL

TRANSFORMING ORGANIZATIONS
SINCE 1987

OVERVIEW.

Teledec International works with organizations to assess operational effectiveness, identify infrastructure and technology transformation requirements, develop learning programs designed to enhance skills and employee performance, improve and enhance marketing and sales processes, and identify and engage outsourcing and staffing resources, while creating a sustainable growth culture. Through proprietary processes supported by more than 30 years of experience, Teledec senior consultants, designers and engineers build and implement customized business solutions that deliver significant ROI by protecting and improving your organizational assets.

Teledec has been a premier provider of operational, training, and staffing services since 1987. Started as a training company, Teledec's principals are experienced and highly skilled business professionals who have a deep commitment to performance and value. Delivering world-class business solutions requires a deep understanding of industries and markets, as well as having the right people, with the right skills, to get the job done. More than 150 global corporations and institutions have come to rely on Teledec's innovative and cost effective solutions that span an astonishing number of integrated services across a spectrum of industry-specific platforms.

Our goal is to generate measurable results and value for our clients through reliable, cost-effective, high-quality, and innovative services. We are specialists in customizing every aspect of our services to meet the client's exact needs, including research, analysis, design, application development, production, outsourcing and staffing, delivery, and project management.

Business Simulations.

Not just words, but the underlying principle behind Teledec's Learning Methodologies.

There are many professional fields train by experiential learning methods such as pilots,

the military, healthcare and medical professionals, police and fire professionals, and many others... so why not train your staff the same way?

Teledec has a long history of using business simulations to provide an interactive learning experience that requires participants to apply what they have learned in a business training event in a robust, risk-free environment.

Participants build relevant skills, improve conceptual knowledge, and gain a better appreciation of business strategy and the systems of business management in order to build skills and improve performance.

Interpretive simulations serve as the bridge between learning and real-life experience. They provide participants with the opportunity to make relevant decisions in a competitive marketplace in functions associated with roles in your company.

Backed by more than 30 years of experience, Teledec delivers optimum value and service, advancing your business training agenda and giving you a meaningful ROI.
